### STUDY IN LONDON – SEE THE WORLD!

For many people, London is THE place to live, work and play. It has a night life that is probably unequalled anywhere in the world, yet the city also has so many historical attractions. It is truly a metropolis for the 21<sup>st</sup> century!

Now students have the opportunity to study in London. English Oak Recruitment is now collaborating with TASMAL London School of Business and EThames Graduate School. Both these private colleges award honours bachelors degrees from universities, have highly qualified and experienced staff and benefit from modern campuses.

Their fees are about the same as the universities' and scholarships may be available.

Being only 20 minutes from central London (by tube) means you can study for a university degree and enjoy all the excitement of London at the same time.

For more information about these colleges and the other universities we represent, look at our website: [www.englishoakrecruitment.co.uk](http://www.englishoakrecruitment.co.uk)

### BUILDING BUSINESS AT HUDDERSFIELD

The University of Huddersfield is spending GBP17 million on its new Business School building – and just look at the progress being made:

[http://www2.hud.ac.uk/uhbs/news/web\\_cam.php](http://www2.hud.ac.uk/uhbs/news/web_cam.php)

Students who arrive in September 2010 should be able to make full use of the fantastic new facilities.

You can find out more about the new building – and see some artist's impressions of how the building will look – by following this link:

### THE BRITISH CLIMATE

Officially termed 'temperate', Britain does have a lot of rain! Warm (but not usually hot) summers and cool (but not usually cold) winters means that we have some of the greenest and most beautiful countryside to be found anywhere in Europe. Rolling hills, hedges or drystone walls and mixed woodland are typical of much of Britain. If you like the outdoor life, then Britain is the place to be!
